

|                    |  |
|--------------------|--|
| Product            | Master LED Spot MR16 10W                 |
| Product Category   | Master LED                               |
| Replacement for    | 50W Halogen LV lamp                      |
| Beam Angle         | 24°, 36°                                 |
| LEDs               | 4 x Luxeon Rebel LEDs                    |
| Power Requirement  | Recommended 12V Transformer              |
| Power Consumption  | 10W                                      |
| Colour Temperature | True WW 2700 K<br>WW 3000 K<br>CW 4200 K |
| Light Output       | 360 - 540 lm<br>1050 - 2000 cd           |
| CRI                | 80                                       |
| Dimming            | Dimmable                                 |
| Lifetime           | 25,000 hours @ 70% Lumen Maintenance     |

Testing for product performance and applications has been carried out in Philips laboratories using Philips' electronic controls gear. Actual results may vary based on individual applications.
